MEMORANDUM FOR: Mr. Lloyd

25X1A

1. Proposed Regulation "Compliance with Security Regulations", had not received concurrences of DD/I or DD/P after its revision. To expedite matters, Colonel White wrote personal memos to the DD/I and DD/P requesting their concurrence or comments. The DD/I sent in its concurrence.

2. The attached memorandum from the DD/P indicates a wide field of differences of opinion and suggests the regulation be rewritten in light of their comments and observations and that after which it be resubmitted for coordination. In view of this wide variance of opinion, it is recommended that the DD/P comments and recommendations be sent to Security through the Regulations Control Staff.

3. A buckslip for transmittal is attached for signature.
